REVERA

Protecting interests in public procurement procedures for medical goods	Protection of intellectual property rights (trademarks, patents, and others)
Supply of medicinal products on an exclusive and/or long-term basis	Localization of production
Optimal forms of doing business in target markets	Pricing of medical goods, medical devices, and medical equipment
Conducting trainings and consultations on government inspections	Structuring relationships with distributors, pharmacy chains, advertising agencies, and government authorities
Internal compliance and legal compliance audits related to business activities	Advertising and promotion of medicinal products and other medical goods
Implementation of clinical research programs, patient support, cost- and risk-sharing, and other programs	Telemedicine
Collection, processing, and protection of personal and other data in the Life Science sector	Provision of information to healthcare professionals
Anti-corruption legislation	Pharmacovigilance

REVERA's Advantages

REVERA

1

Fast Service

Shorter terms for consultation thanks to well-coordinated relationships between REVERA and local partners.

2

Unified Quality and Communication Standards

A single client manager acts as a single point of contact for all questions and requests.

3

Minimizing the Number of Counterparties, Agreements and KYC Procedures.

Working under a single agreement instead of multiple agreements with different lawyers.

4

Full Outsourcing of Project Management

All project-related administration, so the client gets only the final expertise without the bureaucracy.

Contact Information

I'm Sergey Sushchenya, your Client Manager, head of the Life Science, and your main contact for any questions you may have.
